

Dear Parent,

Congratulations on the birth of your baby. Like you, we want your baby to get off to the best start possible. Your baby's doctor works with KIDSNET and our other child health programs to make sure your child gets routine health care including immunizations.

New parents often have questions about their baby's health and development. Our Family Health information team is ready to answer your questions and connect you with resources in your community. For more information call the Family Health Information Line today at 1-800-942-7434.

Sincerely,

David R. Gifford, MD, MPH  
Director, Rhode Island Department of Health
